This handbook on the new bond law provides a legal comparison to the UK covered bond. While offering a deeper understanding of structured covered bonds and the further development of national law, the work at hand also aims to contribute to the assessment of the security and benefits of covered bonds and the discussion of integration of the EU mortgagee credit markets, especially regarding the refinancing of mortgage credits through covered bonds.

The next few years will be critical for Europe's banking industry. It faces a number of financial sector reforms that will have a decisive impact on the dominant practices and business models followed across the European Union. This timely volume presents the results of the first screening exercise conducted on the performance, stability, risk, efficiency, and corporate governance of twenty-six major European banks—before, during, and after the financial crisis. The authors use those findings to help identify the key strengths and weaknesses inherent in the dominant business models, in light of the upcoming regulatory changes.

Kristin Köhler untersucht die Finanzkommunikation von Kapitalgesellschaften und deren Beziehungen mit Investoren, Eigentümern und Kapitalgebern. Sie

geht der Frage nach, wie sich Investor Relations als Managementpraktik in kapitalmarktorientierten Unternehmen und als Berufsfeld in Deutschland institutionalisiert haben. In einer umfassenden empirischen Untersuchung befragt sie insgesamt 80 Investor-Relations-Verantwortliche deutscher Kapitalgesellschaften, Finanzjournalisten, Analysten, Berater, Wissenschaftler sowie Vertreter von Banken, Investmentfonds, Regulatoren, Ratingagenturen und Berufsverbänden. Hieraus identifiziert sie fünf Typen: Investor Relations als Informationspflicht, als Kommunikationsfunktion, als Marketingfunktion, als Finanzfunktion und als integrierte Funktion. „Kristin Köhler hat [...] ein Grundlagenwerk zur Finanzkommunikation von beeindruckender Breite und Dichte geschaffen, das die Diskussion im Themenfeld ohne Zweifel nachhaltig beeinflussen wird.“ Prof. Dr. Ansgar Zerfaß, Universität Leipzig „Investor Relations haben sich in Deutschland in den vergangenen zwei Jahrzehnten als Profession etabliert. Kristin Köhler untersucht in ihrer Arbeit nicht nur den Weg, den IR bislang genommen haben. Sie entwickelt auch eine Typologie von IR-Funktionen, die zukunftsweisend ist: Hin zu mehr strategischer Kompetenz und Verantwortung.“ Kay Bommer, DIRK – Deutscher Investor Relations Verband

This fully revised, updated and expanded edition of the industry standard text takes the reader through the complete life cycle of a syndicated loan. Beginning with the opening phase of mandating a lead bank, Syndicated Lending delves through negotiation, documentation, syndication and closing transactions to conclude with the secondary market. This seventh edition includes new supplements dealing with: • regional syndicated loan markets • growing regulatory framework • the influence of Brexit on the market • the challenges thrown up by the transition from LIBOR-based pricing to the proposed risk-free rate environment. The practice of syndicated lending is similarly explored in its historical context, by following the ups and downs of this most flexible, and enduring, financial market. Plus, while the market moves toward digitisation, summaries are provided for the leading technology solutions being developed. With practical explanations, reflecting practices developed by the LMA, from borrowers, bankers and investors, this book offers insight from industry professionals with decades of experience as well as detailed examples of pricing methodology. There is also an up-to-date discussion of documentary issues, including annotated term sheets and loan documents, contributed by Clifford Chance. This is the essential guide to the commercial and documentary aspects of syndicated lending for lenders, borrowers, investors, lawyers, regulators and service providers.
