The D50 looks fine at ISO 1,600 if you need it. I'd much rather have a slightly grainy but sharp image than a less grainy but blurry one. Unlike film, the D50 looks great at high ISOs, so I use them anytime I need them. I would love to use ISO AUTO, but usually don't because it also remains active in Manual exposure mode.

The Nikon D50 uses the small-sized SD cards to store photos. With 6.1 megapixels, you're going to want at least a 512MB card, although you can also double that capacity to 1GB. I do recommend the high-speed cards, since these improve the rate the camera can save photos the card, and makes it faster to transfer photos to your computer.
